

8-Port Gigabit Managed Layer 2 PoE+ Switch with 2 SFP Slots
ST-M0802PS Datasheet

Product Description

The ST-M0802PS is a Layer 2 Managed Gigabit PoE+ Switch, providing 8*10/100/1000 BASE-T PoE+ Ports with 2 Gigabit SFP Slots, it offers full L2 switching functions including IP-MAC-Port Binding (IMPB) and Access Control List (ACL) protect against broadcast storm, VLANs for segmenting and isolating virtual LAN groups, port bandwidth controls, SNMP monitoring, multicast and IGMP snooping to optimize IP surveillance system performance, and Quality of Service (QoS) for traffic prioritization, to move your data smoother and faster.

The ST-M0802PS Switches also feature SFP slots to support long-distance fiber networking applications, 11 inch Metal enclosure supports desktop and rack-mounted installation, along with the easy-to-use Web GUI management interfaces, making ST-M0802PS a reliable and secure solution for Enterprise, Campus, ISP and SMB networks requirement.

Product Appearance

ST-M0802PS

- 8*10/100/1000M Self-adaptive PoE+ Ports
- 2*1000M SFP Slots
- Backplane Bandwidth: 20Gbps
- Packet Forwarding Rate: 14.88Mpps
- PoE Power budget: 120W / 150W

Product Performance

- Full Layer 2 network management and security capabilities
- Support Dynamic Link Aggregation Control Protocol (LACP)
- Support IGMP snooping optimize voice, video application
- Support short-circuit protection and Over-current protection
- Support Port Priority to protect switches in over-loading status
- Support Default button for recovery factory setting (Hold on 10s)
- Automatic defect the stuck IP Cameras, and Reboot IPC (other PDs)
- WEB/CLI managed modes, a broad range of network configurations: 802.1p CoS, 802.1q VLAN, Private, Multicast, and Voice VLAN, STP, RSTP, GVRP and QoS queue scheduling, etc

Hardware Specifications

Model	ST-M0802PS
Downlink ports	8*10/100/1000M Self-adaptive PoE+ Ports
Uplink ports	2*1000M SFP Slots
LED indicator	PWR, Link / Act
Transmission mode	IEEE802.3x full duplex flow control and backpressure half duplex flow control
Bandwidth	20Gbps
Forwarding Rate	14.88Mpps

MAC address	8K
PoE Power Budget	120W / 150W
PoE standard	IEEE 802.3af, IEEE 802.3at
	IEEE802.3i 10 BASE-TX
	IEEE802.3u 100 BASE-TX
	IEEE802.3ab 1000 BASE-T
	IEEE802.3z 1000 BASE-LX
Standard protocol	IEEE802.3x Flow Control
Standard protocol	IEEE802.1p
	IEEE802.1x
	IEEE802.1d
	IEEE802.1s
	IEEE802.3az EEE
Power supply	AC 100~240V 50/60HZ
Dimensions	282mm*178mm*44mm
Working temperature	Working Temperature: 0°C~45°C, Humidity: 10%~90%
	Storage Temperature: - 20%~70%, Humidity: 5%~95%

Software Specifications

Routing	Support static routing Support ARP proxy
Loop protection	Support ERPS Ring protection Support 50ms healing looping Support BPDU protection, root protection and loopback protection
Spanning tree (STP)	Support STP (IEEE 802.1d), Support RSTP (IEEE 802.1w) Support MSTP (IEEE 802.1s) Support loop protection, root bridge protection, TC protection, BPDU protection, BPDU filtering
PoE management	Support PoE watchdog Support PoE time setting Support PoE port management
DHCP	Support DHCP server Support DHCP relay Support DHCP Snooping Support Option, Option82
MAC address table	Follow IEEE 802.1d standard Support MAC address automatic learning and aging Support static, dynamic, filter address table

Support AK VLAN Support 802.1Q VLAN, Mac VLAN, protocol VLAN, Private VLAN Support GVRP protocol Support GVRP protocol Support 1: 1 and N: 1 VLAN mapping function Based on user grading management and password protection Support for port numbers, IP addresses, MAC addresses limit users access Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support BACP Snooping, DHCP Attack Protection Support BACP Snooping, DHCP Attack Protection Support DHCP protection Support DHCP destination MAC address, source / destination IP address. TCP / UDP protocol, source / destination more protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IP-4d, IP-6d, ACL Support Bap Port queuing Support HPV4, IP-6d, ACL Support Bap Port queuing Support MID V1 / V2 / V3 Snooping Support MID V1 / V2 / Snooping Support MID V1 / V2 Snooping Support Bast leaving mechanism Support MUT State Packet Statistics, unknown multicast discard Support Bast leaving mechanism Support DR Support Bast Naving serial port) Support Bast leaving mechanism Support LCI (felnet, SSH V1 / V2, Icoal serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support SNMP V1 / V2 / V3, compatible public MIBS Support System log, grading warning Support system log, grading warning Support prior, trace route detection, UDLD Support defection port test, optical module information detection Support HTTP, TFTP software upgrade, configuration management		
Support Guest VLAN, Voice VLAN Support GVRP protocol Support 1: 1 and N: 1 VLAN mapping function Based on user grading management and password protection Support for port numbers, IP addresses, MAC addresses limit users access Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support B02.1x certification, AAA Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Support CPU protection Support CPU protection Support CPU protection Support L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support IPv4, IPv6, ACL Support B port queuing Support Bort queuing Support Bort queuing Support MRR, strict priority, 802.1p priority, DSCP priority Support MRR strict priority scheduling algorithm Support IGMP V1 / V2 V3 Snooping Support multicast VLAN Support multicast VLAN Support two protocol, source protocol, and VLAN package filtering function Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support LIDP, RMON Support CLI (Telnet, SSH V1 / V2, local serial port) Support LIDP, RMON Support CLI (Telnet, SSH V1 / V3, compatible public MIBS Support LIDP, RMON Support CLI (Telnet, SSH V1 / V3, compatible public MIBS Support LIDP, RMON Support LIDP, RMON Support LIDP, RMON Support celetrical port test, optical module information detection	VLAN	
Support GVRP protocol Support 1: 1 and N: 1 VLAN mapping function Based on user grading management and password protection Support for port numbers, IP addresses, MAC addresses limit users access Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support BO-21x certification, AAA Support BO-21x certification, AAA Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Access Control (ACL) Access Control (ACL) Support St 2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support Byort wirror, port redirection, flow rate, QoS marking Support WRR, strict priority scheduling algorithm Support MLD V1 / V2 / V3 Snooping Support MLD V1 / V2 / Snooping Support MLD V1 / V2 Snooping Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CLU monitoring, memory monitoring Support goute detection, UDLD Support electrical port test, optical module information detection		
Support 1: 1 and N: 1 VLAN mapping function Based on user grading management and password protection Support for port numbers, IP addresses, MAC addresses limit users access Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support DHCP Snooping, DHCP Attack Protection Support B02.1x certification, AAA Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Support Support Support Support Provide Source / destination IP address, TCP / UDP protocol, source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPV4, IPV6, ACL Support 8 port queuing Support port priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support MLD V1 / V2 / N3 Snooping Support MLD V1 / V2 Snooping Support multicast filtering, packet statistics, unknown multicast discard Support Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support SNMP V1 / V2 / V3, compatible public MIBS Support LUP, RMON Support CPU monitoring, memory monitoring Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		
Based on user grading management and password protection Support for port numbers, IP addresses, MAC addresses limit users access Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support APP protection, IP source protection, DOS protection Support B02.1x certification, AAA Support RADIUS Support TACACS+ Support TACACS+ Support port security, port isolation Support CPU protection Access Control (ACL) Access Control (ACL) Support B02.1x certification MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support bort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MULD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CUL (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LUDP, RMON Support CPU monitoring, memory monitoring Support DPL monitoring, memory monitoring Support CPU monitoring, to the process of the priority support detection of the public module information detection		
Support for port numbers, IP addresses, MAC addresses limit users access Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support B02.1x certification, AAA Support RADIUS Support TACACS+ Support TACACS+ Support TACACS+ Support OF security, port isolation Support CPU protection Access Control (ACL) Access Control (ACL) Support B02.1x certification, AAA Support NaCACS+ Support MacCacs+ Support Acacs+ Support Security, port isolation Support CPU protection Access Control (ACL) Support B02.1x certification MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support NBC, strict priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Multicast Multicast Support MID V1 / V2 / V3 Snooping Support multicast VLAN Support Meb network management (HTTP, HTTPS, SSL V3, TLS V1) Support SNMP V1 / V2 / V3, compatible public MIBS Support SNMP V1 / V2 / V3, compatible public MIBS Support LIDP, RMON Support system log, grading warning Support ping, trace route detection, UDLD Support bectrical port test, optical module information detection		Support 1. I and N. I VEAN mapping function
Support HTTPS, SSL V3, TLS V1, SSH V1 / V2 Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support B02.1x certification, AAA Support RADIUS Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Support L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support IPv4, IPv6, ACL Support 8 port queuing Service quality (QoS) Support WRR, strict priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Multicast Support Individual YLAN Support multicast YLAN Support multicast YLAN Support multicast YLAN Support multicast Filtering, packet statistics, unknown multicast discard Support SNMP V1 / V2 / V3, compatible public MIBS Support SNMP V1 / V2 / V3, compatible public MIBS Support system log, grading warning Support ping, trace route detection, UDLD Support sport port model effection, UDLD Support lectrical port test, optical module information detection		Based on user grading management and password protection
Support IP-MAC-Port-VLAN quarter binding Support ARP protection, IP source protection, DOS protection Support DHCP Snooping, DHCP Attack Protection Support 802.1x certification, AAA Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Support CPU protection Support CPU protection Support CPU protection Access Control (ACL) Access Control (ACL) Support beat security, port redirection, flow rate, QoS marking Support port mirror, port redirection, flow rate, QoS marking Support Pv4, IPv6, ACL Support 8 port queuing Support wort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support CLI (Telnet, SSH V1 / V2, local serial port) Support Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support typen priority, memory monitoring Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support for port numbers, IP addresses, MAC addresses limit users access
Support ARP protection, IP source protection, DOS protection Support DHCP Snooping, DHCP Attack Protection Support 802.1x certification, AAA Support RADIUS Support ARDIUS Support TACACS+ Support port security, port isolation Support CPU protection Support CPU protection Support L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support IPv4, IPv6, ACL Support 8 port queuing Support port priority, port redirection, flow rate, QoS marking Support WRR, strict priority, SU2.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast VLAN Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CPU monitoring, memory monitoring Support LLDP, RMON Support System log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support HTTPS, SSL V3, TLS V1, SSH V1 / V2
Security feature Support DHCP Snooping, DHCP Attack Protection Support 802.1x certification, AAA Support RADIUS Support TACACS+ Support port execurity, port isolation Support CPU protection Support CPU protection Support L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support IPv4, IPv6, ACL Support 8 port queuing Support Pv6, ACL Support WRR, strict priority, B02.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support multicast VLAN Support multicast VLAN Support multicast Filtering, packet statistics, unknown multicast discard Management and maintenance Management Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support System log. grading warning Support system log. grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support IP-MAC-Port-VLAN quarter binding
Support 802.1x certification, AAA Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Support CPU protection Support Support Support Support Support Support Support Support Provide Source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support WRR, strict priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast Filtering, packet statistics, unknown multicast discard Support web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support ARP protection, IP source protection, DOS protection
Support RADIUS Support TACACS+ Support port security, port isolation Support CPU protection Support S	Security feature	Support DHCP Snooping, DHCP Attack Protection
Support TACACS+ Support port security, port isolation Support CPU protection Support CPU protection Supports L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support bort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Management and maintenance Management and maintenance Management Support CPU monitoring, memory monitoring Support LIDP, RMON Support cPU monitoring, memory monitoring Support ping, trace route detection, UDLD Support lectrical port test, optical module information detection		Support 802.1x certification, AAA
Support port security, port isolation Support CPU protection Support CPU protection Supports L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support wRR, strict priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support RADIUS
Support CPU protection Supports L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support bort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support TACACS+
Supports L2 (Layer 2) ~ L4 (Layer 4) package filter function Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support wr. Support w		Support port security, port isolation
Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Service quality (QoS) Support bort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support SNMP V1 / V2 / V3, compatible public MIBS Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support CPU protection
Provide source / destination MAC address, source / destination IP address, TCP / UDP protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Service quality (QoS) Support bort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support SNMP V1 / V2 / V3, compatible public MIBS Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Supports L2 (Layer 2) ~ L4 (Layer 4) package filter function
Access Control (ACL) protocol, source / destination port number protocol, and VLAN package filtering function Support port mirror, port redirection, flow rate, QoS marking Support IPv4, IPv6, ACL Support 8 port queuing Support bort priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		
Support IPv4, IPv6, ACL Support 8 port queuing Support 8 port queuing Support priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support fast leaving mechanism Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection	Access Control (ACL)	protocol, source / destination port number protocol, and VLAN package filtering function
Support 8 port queuing Support port priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support fast leaving mechanism Support multicast VLAN Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support port mirror, port redirection, flow rate, QoS marking
Service quality (QoS) Support port priority, 802.1p priority, DSCP priority Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support fast leaving mechanism Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support IPv4, IPv6, ACL
Support WRR, strict priority scheduling algorithm Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support fast leaving mechanism Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support 8 port queuing
Support IGMP V1 / V2 / V3 Snooping Support MLD V1 / V2 Snooping Support fast leaving mechanism Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection	Service quality (QoS)	Support port priority, 802.1p priority, DSCP priority
Multicast Support MLD V1 / V2 Snooping Support fast leaving mechanism Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support WRR, strict priority scheduling algorithm
Multicast Support fast leaving mechanism Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support IGMP V1 / V2 / V3 Snooping
Support multicast VLAN Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection	Multicast	Support MLD V1 / V2 Snooping
Support multicast filtering, packet statistics, unknown multicast discard Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support fast leaving mechanism
Support Web network management (HTTP, HTTPS, SSL V3, TLS V1) Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support multicast VLAN
Support CLI (Telnet, SSH V1 / V2, local serial port) Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support multicast filtering, packet statistics, unknown multicast discard
Management and maintenance Support SNMP V1 / V2 / V3, compatible public MIBS Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support Web network management (HTTP, HTTPS, SSL V3, TLS V1)
Management and maintenance Support LLDP, RMON Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support CLI (Telnet, SSH V1 / V2, local serial port)
Management and maintenance Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support SNMP V1 / V2 / V3, compatible public MIBS
and maintenance Support CPU monitoring, memory monitoring Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support LLDP, RMON
Support system log, grading warning Support ping, trace route detection, UDLD Support electrical port test, optical module information detection		Support CPU monitoring, memory monitoring
Support electrical port test, optical module information detection		Support system log, grading warning
		Support ping, trace route detection, UDLD
Support HTTP, TFTP software upgrade, configuration management		Support electrical port test, optical module information detection
		Support HTTP, TFTP software upgrade, configuration management

Order Information
